

EXAMINE 300
TO MAKE UP
BIG DEFICIT

ONE HUNDRED MEN APPEAR FOR EXAMINATIONS TODAY TO FILL UP QUOTA FOR THIS DISTRICT.

104 PASS LOCAL BOARD

Two Hundred of the First Lot Called Up Have Been Discharged or Disqualified.

With a total out of the first three hundred and four men called in the first draft discharged because of physical disqualifications or dependents, the local board of the first lot called to examine the second quota of men called to furnish the necessary number from this district.

In the appended list is shown the names of all men who are called into the service of the United States who have not already been exempted or discharged. This does not mean, however, that all these men will be in the new national army, a large majority of them have already filed claims for exemptions on various bases, with the district board. They have passed out of the jurisdiction of the local board, which has the charge of the appeal of the decisions of the local board and of the industrial and agricultural exemptions.

Three hundred men have been summoned to appear for examination today, tomorrow and Thursday, to make up the deficit brought about by the high rate of discharge. One hundred and fifty of the quota for the first district of Rock county, and according to the original estimates it was thought exemptions would not run above fifty per cent. Therefore, three hundred men were summoned for examination; of that number two hundred have already been discharged, and there is every probability that many of the one hundred and four remaining names appear below will receive their exemptions from the district board.

With less rigorous examination since the orders issued by President Wilson for the first draft, and the ruling that exemptions for dependents were to be cut, it is felt that a larger percentage of the men called now will be candidates for the national army.

The board with the examining physicians assembled at nine o'clock this morning, where there was already a large number of men waiting to be examined. The board, as in the past, conducts its examinations secretly, none but the applicants and the officers of the board being permitted to be present. No explanation of the number of men passed or disqualified will be given out until the entire three hundred called in this quota have been examined.

At the end of these three days an announcement will be made of all those who have passed, and those who have been rejected, and the board will prepare to conduct the exemptions which will be filed.

Will Go Soon.
General Crowder today announced that thirty per cent of the men drafted for the national army will be called to the colors September 5th; the next 30 per cent September 15th; another 30 per cent September 30th, and the remaining 10 per cent as soon as possible.

Called For Service.

Ask More Than 1000
To Confer On Plans
For Russ Government

Petrograd, Aug. 14.—More than 1000 persons have been invited by the government to attend the conference at Moscow August 25-27 to consider plans for the new national government. The invitees have been asked to attend include all members of the four Dumas, other persons prominent in public life, and representatives of all important organizations, whether political, economic, or scientific. The conference will be opened by Premier Kerensky.

Premier Kerensky in reply to a message of good will, King George sent him at the beginning of the fourth day of the war said: "I am certain the Russian people will find the necessary strength to surmount the serious trials of present and conduct the world war to an end, which will be the result of the terrible sacrifices already made by every nation which is struggling for right against might."

BILL AND HAPSBURGS
MUST GET OUT; PEACE
HINGES ON OUSTING

Geneva, Aug. 14.—"The Hohenzollerns and the Hapsburgs must go in order to have a durable peace in Europe," declared Jean Sigis, president of the Swiss national council, chief of the socialists in Geneva and one of the most influential members of his party in Switzerland, in an interview with the Associated Press correspondent.

"The hour of the Hohenzollerns and the Hapsburgs has sounded," he continued. "The hour of democracy which is sweeping across Europe will also sweep them away, not perhaps during the war, but soon afterward. The hour of men will not agree, will not allow in future that their destinies, their lives, should be ruled by a handful of autocrats. In this sense this terrible war has wrought good; it has opened the eyes of the people. The Russian emperor has gone; more emperors will follow."

Mr. Sigis has the greatest faith in new Russia, if allowed to build its new regeneration without foreign, especially German influence. He considers the Stockholm conference more or less a farce owing to the divergent views of the socialist delegates from the different countries. He will work at Petrograd of Robert Grimm, the Swiss socialist who endeavored to make peace between Germany and Russia, he says, never representing Swiss socialism and who, like Hoffman on his own authority without consulting his colleagues.

"German socialists, with a few exceptions," said Mr. Sigis, have betrayed international socialism by following like a flock of sheep in the footsteps of German junkerism, but they are beginning to awake from their false dream.

"Though, like all Swiss, I ardently wish for peace, I don't see it in sight. A peace treaty now—I say this as a Swiss—would be an act in the favor of Germany, and thus in the favor of the Allies, backed now by America, rightly will not permit this in the case of justice and humanity. The social peace after this war will be difficult to solve—but wait first until the war is finished."

DUTCH EAST INDIES
FEARFUL OF JAPAN
ASKS HOLLAND, 'ARM'

The Hague, Netherlands, Aug. 14.—A deputation of natives from the Dutch East Indies, who are the queen of Holland to represent the necessity of a more adequate defense of their country, was an unusual incident recently witnessed at the royal palace.

A deputation of five natives and two Europeans made the long passage from Java to the mother country to lay before her majesty, her ministers and the cabinet a text and resolution on this subject passed at a big demonstration at Batavia, Sourabaya and numerous other centers.

The native delegates comprise a Japanese prince representing the nobility, a leading dignitary who speaks for the high native official class; a delegate of the native and Moslem societies of the Sarekat Islam, with 1,820,000 members; and two other representatives of native societies. The little party has been received with every mark of respect; it has been presented to the queen, the queen mother and members of the government.

The leader of the deputation suggests that a sum equivalent to \$500,000 be loaned to the Dutch East Indies, out of which the former should pay for the building of eight armored cruisers, while the latter would acquire a fleet of submarines, torpedo-boats, mine-layers, coastal defense, and the organization of a militia with officers training colleges and military factories.

Abdul Muis, the representative of the Sarekat Islam, brought definite demands formulated by those whose envoy he is. He said in substance: "We are ready to co-operate in form of a nation against Japan, whose domination would be far more undesirable than that of Holland; but in return you must make Dutch East Indies a larger sum than the Dutch government, and make Dutch East Indies a state ruled in the interests of and by the natives, under Holland's leadership."

NEW U. S. WAR LOAN
OF 3 TO 4 BILLIONS

Washington, Aug. 14.—Congress soon will be asked to authorize an other loan of between three and four billion dollars to the allies.

Secretary McAdoo and Chairman Kitchin of the ways and means committee agreed on this today and also agreed upon the desirability raising for war purposes by taxation. Congress probably will be called upon at the December session to revise the war revenue bill, which the senate, in the sum to be obtained through taxation.

Band concert by Bowser City Band.

Thousands of kiddies assembled this morning at the fair grounds to observe children's day at Janesville's big fair. Coming from all parts of the county and some from other cities, driving the old family horse, while still others walked, bringing with them well-filled boxes and baskets of goodies, the children gathered in the grounds. Pennies and nickels that had been saved for months were lavishly spent on ice cream cones, candies and various other goodies, as well as riding on the merry-go-round, and the ferris wheel. Ticket sellers for the various shows were kept busy dealing out tickets to the hundreds of curious children waiting either to see the woman, or Spidora, the woman without a body, and hundreds of other freaks assembled on the grounds.

In the morning the students' judging contest was staged, and this found hundreds of country boys, as well as many city boys who are interested in live stock and who do not have much of a chance to come in contact with it often, eager to try their skill at judging.

The Beloit Boys' band arrived in town early and gave a concert on the grounds. All during the morning and afternoon they gave numerous selections on various parts of the grounds, always being located near the entrance gate and the other far down the mid-way toward the grandstand.

A spacious rest tent has been erected at the rear of the grandstand, connected with which is a wired enclosure, in which small children may be left to play safely.

Two sanitary toilets have been provided for the use of the women, located in the rear of the grandstand.

All the retail stores in the city, the Gazette and the four banks and all county offices, excepting the clerk of the court, will close tomorrow to allow the whole city to attend Janesville's Great Fair.

WAR WORRIES WORN
WELL BY WOODROW;
WE'LL WIN WON'T WE

Washington, Aug. 14.—If you have pictured President Wilson careworn, haggard and breaking under the strain of his tremendous war problems change the portrait. It's way wrong.

On one of his unusual jaunts to the White House to Secretary Baker's office in the state war and navy building he gave press men an opportunity for a good close-up of Woodrow Wilson in war mood. Swinging out from Baker's room and down the tiled corridor, the president had more the manner of a man who had just concluded a long and arduous day's work. He was wearing a white shirt, a broad-brimmed straw hat set squarely on his head, the president moved at a brisk pace toward the stairway. There was a glow of his cheeks, his smile was genial, his cheeks ruddy with the glow of health.

Realizing the vital importance of keeping himself fit, the president was exceedingly careful to play with his work.

Early every morning, long before most Washingtonians are so much as turning over for the day, the president is out in his knickerbockers and off around the golf course. Mrs. Wilson usually accompanies him. A couple of hours later, he will be seen rolling into the White House grounds in one of the big cars with the golden spread eagles in a circle on the door panels. Golf, walking and other mild forms of exercise take care of the president's physical health. For mental diversion and rest he turns from the problems of war to intricate, complex and quite thrilling detective stories. Thousands of papers from all over the country are carefully gone over for news of interest to the White House. Most of his steno-graphic staff is important to bring to the president's personal attention he gets in the form of pasted up clippings at the proper time.

He has cares and worries and burdens galore, has the president, but he isn't breaking down under them.

CUT DOWN ON EXPORT
OF U. S. AIRPLANES

Washington, Aug. 14.—Neutral countries have been pouring orders for American aeroplanes at such a rate that in order to conserve the supply for itself and allies the government has been obliged to prohibit the export of aircraft except by license.

LA FOLLETTE SUBMITS MINORITY COMMITTEE REPORT UPON WAR TAX MEASURES.

NO SUBSTITUTE BILL

Says, However, That if Modifications Are Not Made in Present Measure Amendments Will Be Offered.

Washington, Aug. 14.—A minority report of the senate finance committee on the war tax bill was presented to the senate today by Senator La Follette, with the concurrence of Senators Gore and Thomas, recommending that war profits and big incomes be utilized as the principal source of taxation in providing funds for the country's war needs. Contrary to expectations, Senator La Follette did not present a substitute for the pending bill, but instead announced that he would give it a total strength with auxiliary troops of approximately 20,000 men.

Discussion of the time and place of mobilization of the division or of its departure for France are not permissible under the volunteer censorship. The war department announced under the heading "composite national guard division," that among the organizations of the national guard selected to compose the second division were the 15th machine gun battalion (composed of companies E, F, and G, second Wisconsin infantry), and other infantry from New York and Ohio.

The minority report charges that the bill as revised by the majority makes inadequate provision for raising of revenue needed for financing the war. It says that the bill, as amended, would place "upon those least able to bear it."

England has taxed her war profits eighty per cent without impairing her great industry, declared Senator La Follette. Instead her wealthy classes were "never in receipt of larger incomes nor were her larger business concerns more flourishing." Heavy taxes, he said, could be levied on American corporations without any fear of affecting capital or crippling business.

"From the income tax and the war profits tax," stated the report, "can be raised without subjecting the country to serious mental strain and without depriving the people even the luxuries of life, more than double the amount proposed in the pending bill."

Congress were to adopt the British rates of 80 per cent on war profits, Senator La Follette said, more than two and a quarter billions of dollars would be realized in a single year from this source. The bill, he said, would yield \$2,021,000,000; sixty per cent, \$1,212,600,000; fifty per cent, \$1,010,500,000; forty per cent, \$808,400,000; and thirty per cent, \$606,300,000, according to estimates furnished by the treasury department.

"Nothing that this country or any other country has ever prevailed upon in the war of war financing," he declared, "compares with the obligations we are assuming. We are not merely to finance one country, we must to a large extent finance at least five or six other countries."

In comparison with the average yearly wage of \$700 earned by the American laboring man, Senator La Follette presented the following figures: The percentage of war profits over normal earnings of the Du Pont Powder company was 1,400 per cent; Bethlehem steel, 1,800 per cent; American Locomotive, 1,500 per cent; U. S. Steel, 300 per cent; Anaconda Copper, 400 per cent; American Beet Sugar, 250 per cent; Armour and Company, 350 per cent; and American Hide & Leather, 250 per cent.

In urging that the income tax scale be increased to lighten the burden borne by the laboring classes, Senator La Follette declared that wages had increased only 18 per cent, while the necessities of life had advanced 85 per cent.

"It is monstrously unfair," said Senator La Follette, "to tax the everyday necessities of the average man or woman to pay the expenses of the war, in addition to commanding him to make good the losses of the government and their children, so long as the swollen and abnormal war profits are not taken—profits which the war has created, and which will disappear as soon as the war ends. Every dollar of the above profits can be taken and still the enormous peace time profits of these and other great corporations will not be touched."

Senator La Follette said that the government should receive his handsome peace-time dividend; every officer his princely salary.

In support of the minority contention that the majority estimates are grossly insufficient to carry the government through the next fiscal year, Senator La Follette declared the estimated expenditures for the fiscal year 1918, provided for by the majority report, at \$1,943,455,000, considering the loans that will probably be requested by the Allies, the American people will be called upon during the year to raise at least \$13,000,000,000, he declared. The minority members object to the proposed bond issue of billions of dollars, contending that this burden at the end of the war, when capital will be needed in the work of rehabilitation in both America and in Europe.

China Declares War
On Central Powers;
Is Seventeenth Ally

London, Aug. 14.—Reuters' limited has been officially informed that China has declared war upon Germany and Austria-Hungary, the declaration dating from ten o'clock this morning.

Seventeenth Nation.
China is the seventeenth nation to ally itself with the entente countries against the central powers. The division of the Chinese cabinet to declare war on Germany and Austria-Hungary was reached August 2, and action of members of the ministry was approved by Feng Kwo-Chang, the acting president of the republic.

WISCONSIN TROOPS
ON THE LIST FOR
FOREIGN SERVICE

Washington, Aug. 14.—Plans for sending the first National Guard troops to France have been perfected by the war department with an organization of a division which will include troops from twenty-six states and the District of Columbia.

The states from which the national guard troops are to be assembled are Louisiana, Pennsylvania, Wisconsin, New York, Ohio, Georgia, Alabama, Iowa, Illinois, Indiana, Minnesota, Maryland, South Carolina, California, Missouri, Virginia, North Carolina, Kansas, Texas, Michigan, New Jersey, Tennessee, Oklahoma, Nebraska, Colorado, Oregon. The others come from the District of Columbia.

The commanding officers of the division will be Brigadier General W. A. Mann of the regular army, now chief of the division of militia affairs of the war department. The war department announced under the heading "composite national guard division," that among the organizations of the national guard selected to compose the second division were the 15th machine gun battalion (composed of companies E, F, and G, second Wisconsin infantry), and other infantry from New York and Ohio.

ITALY MAKES A HERO
OF MAN WHO CLIPPED
PACIFISTS' WHISKERS

Rome, Aug. 14.—The fashionable crowd at the cafe on the Corso Umberto were gazing up at the huge screen on the building opposite the day-Cordona, Sonnino, Joffre, Wilson, Lloyd George—were being thrown on the screen. It is the chief diversion these days of the celebrities of the day.

Then came the picture of a man with a great beard. This caused tremendous laughter. But the climax came when the picture of a thin-faced man with a workman's cap on his head was thrown on the screen. There was a huge ovation for this man, who was called "Maffie" by the crowd. "What is Maffie? Is it possible you don't know Maffie?"

"And who is the man in the workman's cap?"

"That is the carpenter, Tordello. You don't mean to say you haven't heard of Tordello?"

Maffie is a member of the Italian chamber of deputies who made a speech in favor of peace, saying it was really not to Italy's interest to carry on the war. Tordello was for war, and felt that the peace speech must be rebuked. Maffie had an enormous beard which was his pride and joy. When the trial came all Italy awaited the fate of the carpenter. He produced the beard at the trial, and it was duly exhibited. Tordello was arrested and his trial began. All Rome became interested, the question of peace and war came to the fore. Tordello was now in possession of the state. Tordello, as defender of the war, while Maffie had champions for his cause and his beard. Their pictures are the features of all screens.

SAYS JAPS DO NOT
WANT TO GO TO WAR

Green Bay, Wis., Aug. 14.—"Japan does not want to go to war," declared Baron Yoshiro Saiki, paper manufacturer of Japan, who is in Green Bay to study improvements in paper making machinery with a purpose in mind of purchasing machinery for a new mill his company is erecting.

"War is expensive, and it retards industrial development, which Japan is working so hard to accomplish. The emperor is a peaceful man. The coastline of Japan is so long and there are so many islands that it is impossible to defend them all. We would have to utilize many boats to protect the country. It would be difficult to transport our troops to the European war zone. Business conditions are so good that the leaders in thought in the country do not wish to have them disturbed by pitting the nation in war."

In relation to the United States and Japan, Mr. Saiki asserts the Japanese are friendly to this country and desire to carry on trade in all possible lines. "The United States is dearer to Japan than any large country," said Mr. Saiki, "and at this time we are unable to buy of any other country. It is more desirable to trade with the United States than with European nations. In the paper manufacturing business we were prevented from buying machinery from Germany by the fact that the Germans were here in the paper mills in Japan. The talk of war between Japan and the United States is confined to the minds of a few newspaper editors in the United States. It is wrong to think that Japan seeks war with your country."

MILWAUKEE ROAD MAN
IS GIVEN PROMOTION

La Crosse, Wis., Aug. 14.—Clayton A. Bush, yardmaster of the Milwaukee road here, has been advanced to the position of station master of the Milwaukee terminal at Milwaukee. He succeeded by J. T. Greenwood of Milwaukee.

British Force Lines
At Three Points and
Take Houses in Lens

London, Aug. 14.—"Our raiding parties entered the German line last night north of Gouzeau Court, and at two points east of Vermelles, securing a few prisoners," says today's official announcement. "A number of the enemy were killed and his dugouts were bombed. A hostile raid was successfully repulsed north of Rouex. During the night the enemy's artillery was more active than usual, east and northeast of Ypres, and in the neighborhood of Lombardzyde."

Take Snipers' Ambush.
Canadian Headquarters in France, Aug. 14.—Posts were pushed out on a front of about 600 yards into ruined houses from which the enemy snipers have been annoying our men in the advanced line. The result of the raid north of the Lens-Livron road early last night. Little resistance was experienced and only one prisoner captured. The posts pushed out are only 500 yards west of the center of the city, but a belt of razed houses lies between our men and Lens. Over the open space thus secured, the enemy is able to direct a heavy machine gun fire.

GLUE IN ICE CREAM
IS LATEST SWINDLE

Madison, Aug. 14.—A state-wide investigation of the manufacturing of ice cream in the state has been organized by the state dairy and food commissioner, George Weigle, as the result of a discovery that glue has been used in the manufacture of ice cream. The inspectors of the department are at Camp Douglas examining the ice cream shipped there yesterday.

"Some time ago discovery was made that a Chicago firm had received 500,000 pints of glue and was selling it as 'gelatine,'" said Dairy and Food Commissioner Weigle. "One package of the glue was picked up at an ice cream factory in Madison and other packages in Milwaukee and other parts of the state. Gelatine is used in the manufacture of ice cream. Glue is now being prepared so that it is very hard to tell it from gelatine. This investigation also includes the making of marshmallows and gumdrops, both of which are made principally of gelatine."

LUMBER MEN MUST
STOP BLACK LISTS

Minneapolis, Aug. 14.—Judge Wilbert C. Updegraff, United States district court, today handed down a final decree enjoining the Northwestern Lumberman's association from issuing black lists and following other practices which would restrain lumber manufacturers and wholesalers from selling direct to consumers.

CONFER TO FIGHT
SEDITION IN STATE

Madison, Aug. 14.—Letters were received today from the Wisconsin Defense League, Milwaukee, inviting leading Madison citizens to a conference to be held at Milwaukee, August 15. The letter said that the conference would represent every political thought, republican, democratic and socialist to confer and discuss the means to combat a well organized machine working in opposition to the government.

The letters are signed by Wheeler Bloodgood, Willet Spencer, J. Mahoney and M. Simons, Milwaukee; John Chapin, Ashland; W. C. Goodland, Racine; Joseph Martin, Green Bay; and E. J. Dempsey, Oshkosh.

SENTENCES GIVEN
TO EIGHT DODGERS

La Crosse, Aug. 14.—Eight registration dodgers, arrested in the western district of Wisconsin, received sentences from Judge P. E. Baker, United States district judge from Goshen, Indiana, in federal court here today.

ADDRESSES PROPOSAL TO ALL
THE BELLIGERENT NATIONS
AT ONCE.

CLAIM GERMAN ORIGIN

Diplomats See Hand of Kaiser in Scheme in Some Respects It Follows Along the Line of Thought Expressed by Wilson.

Rome, Aug. 14.—Peace proposals made by Pope Benedict have been delivered to all belligerent governments. The Pope suggested restoration of Belgium, Serbia and Rumania, a peaceful solution of the problems of Alsace-Lorraine, Trent, Trieste and Poland according to reports from Vatican sources. It is expected the proposals will be published today by the Vatican.

Known Previously.
Washington, Aug. 14.—The state department acknowledged that it had taken cognizance of the proposals of Pope Benedict's peace proposal before today's news dispatches were received here. No official cognizance can be taken until the proposals are conveyed officially. Whatever consideration is given to it will be after consultation with the allies.

Disclaim Knowledge.
At the Vatican, the papal delegates had not transmitted it to the United States government and did not expect to do so. The opinion was expressed that it would come through a neutral government.

Inspired by Germany?
Within the diplomatic circles, the opinion was freely and promptly expressed that the peace proposal was inspired by Germany, and was an attempt to split the allies by conducting discussion of their war aims.

The Principles.
An official outline of Pope Benedict's peace proposals received here disclosed that the Pontiff includes some of the principals of world peace for which President Wilson has declared.

Among the Pope's proposals are reduction of armaments, freedom of the seas, and that there shall be no retaliatory struggle after the war for world commercial supremacy. These are regarded as foundations of the pope's plan.

No Action.
The extent of the state department's information does not indicate through what channel the proposal will be received, and no information from which an inference might be drawn as to whether it will come through one of the allied governments, or through a dimitary of the church, or through a neutral country, in saying it could not be discussed, until it came officially from the government and were emphatic in declaring no statement whatever could be represented as reflecting the official view.

May Be Considered.
If an inference might be drawn from under current started in official circles by the report it would seem that the proposal would be discussed in good faith by allies, but it does not meet their war aims. It was indicated that a peace proposal, coming from the Pope—the first actual proposal of the kind—would necessarily have to be considered carefully and deliberately and an answer convincing to the world would necessarily have to be made.

How far the peace proposal reflects close relationship with the Vatican with Austria whose earnest desire for peace, despite German influence is well known or how far it reflects the Catholic agitation for the Vatican, one can only venture to say. It is recalled however, leading Catholics were permanent figures in recent peace flurry in Germany.

Return of Territory.
The pope's proposals are that the injury to all belligerents has been so great there should be no reparation except for return of territory.

Included in restoration of territory, the pope's proposal insists, should be returned to Germany of all her colonies as well as complete restoration of Belgium to her sovereignty.

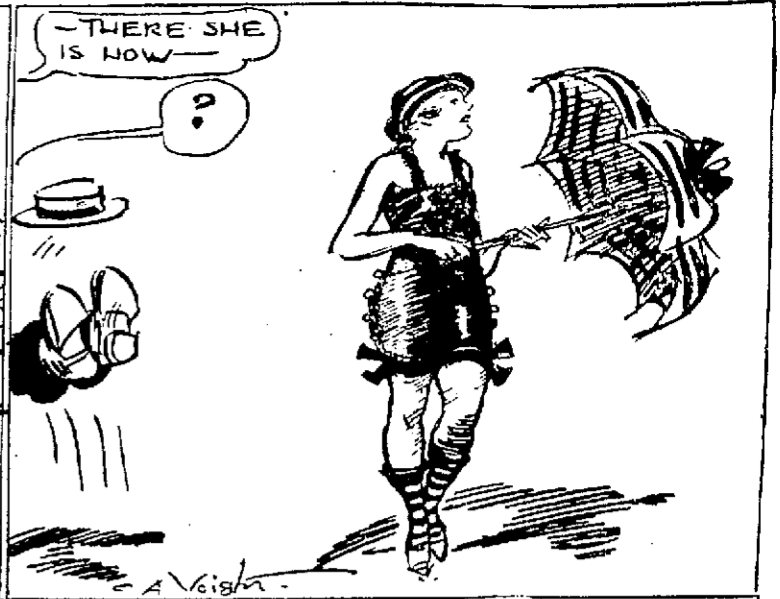

No Real News.
Announcement that the Spanish ambassador at Rome transmitted Pope Benedict's proposal to Italian government and the opinion expressed at the Apostolic delegation here, that it might lead to a neutral lead to the possibility that the Spanish ambassador here, demanded restoration of all German colonies to Germany.

The Spanish embassy's only information today, it was said there, had been received from Associated Press dispatches.

English View.
London, Aug. 14.—The outline of the Vatican peace proposal received here, demands restoration of all German colonies to Germany. SPORTS

SOX'S FLAG CHANCES
DEPEND A WHOLE LOT
ON LONG HOME STAY

Beginning right now the White Sox will have to play the best ball they so far have displayed if they intend to get into the world's series. Finishing the series with Cleveland they will come home for a stay until Sept. 3, when they play a double-header with Detroit. Then they hit the road for the rest of the season, with the exception of three days scheduled at home. They manage to slip in some postponed contests on off days in that period, but they will not be able to count for much.

During the same period the White Sox are at home the Red Sox will be on their last big trip, although they are scheduled for a short stay later. Boston will finish the season at home, a fact which is a decided advantage for Jack Barry's men.

There still are left two clashes between the clubs, one at Chicago and one at Boston. The latter may be the series that will decide the race, for it will be played on the campaign's closing days, beginning Sept. 21 and including Sept. 24.

One of the western clubs will visit Chicago in the home series they are about to start. Later they will entertain an- nouncement of the westerners for a brief period.

The Red Sox should be favorites if the race sticks to anything like a close decision, for they are driving, nervous finishers. They are driving, however, the White Sox and the Tigers last year while crippled and while on the road. The Chicagoans are stronger this year, but they have yet to prove the consistency under the stress of a tight wind up.

Harry Greb of Pittsburgh is rapidly forcing to the front as a local man at Boston. The latter may be the series that will decide the race, for it will be played on the campaign's closing days, beginning Sept. 21 and including Sept. 24.

The return of Jimmy Clabby from Australia, already reported, would give promoters a chance to get Gibbons back in action. A bout between this pair of speed merchants would be a real card.

HITTING PITCHERS
GET MORE COMMON

[SPECIAL TO THE GAZETTE.]

New York, Aug. 14.—Pitchers who not only are willing to hit, but who can take a crack at a baseball with some of the best of hitters, are becoming more frequent in the major leagues.

Time was, a short time ago, when pitchers carried a bat to the plate merely because it was done, and a time at bat had to be there.

Now there are eight pitchers in the American league who are batting .250 or better, and in the National league there are ten.

Base Ruth, of the Red Sox is the pitcher of the pitchers in either league, but Dutch Reuther, Cincinnati, Walter Johnson, Red Russell and Ray Caldwell are considered excellent batters. One of them is likely to be called on to do pinch hitting for his club.

Larry Cheney of the Dodgers is a good hitter. Dick Rudolph of the Braves never strikes a time at bat. He has a team mate of the same name in George Taylor. Sherrod Smith of the Dodgers would rather win a game with a hit than by a stellar pitching performance. Grover Alexander is considered a dangerous batsman. Nearly all the Yankee pitchers are good hitters. George Morige and Ray Caldwell, perhaps, are the best. Al Ruthen has out-hit both of them in his year. Claude Hader of the Cubs is respected by pitchers as a hard, long hitter—one who is just as likely to knock a baseball out of the lot as an out-of-control ball. He has plenty of courage at bat and makes his hit. Jack Coombs' batting is an asset added to his pitching ability. Vance Mitchell of the Reds not only

can pitch a good game, but he can out- field or play first base and gets his regular safe ones.

There are plenty of others—per- haps more of the hitting kind of pitch- ers than the game ever knew before.

Lee Fohl declares that if the White Sox win the pennant, it will be through unfair tactics. He charges every White Sox pitcher with dis- guising balls.

He has a collection of balls used by White Sox pitchers, which he says all have the tell-tale black spot where some substance has been used to chime them.

It isn't improbable that Fohl is right, for Dave Danforth is credited with having discovered the "shine ball" while with Louisville and tak- ing it with him to Chicago.

Milton Junction

Milton Junction, Aug. 14.—The Fort- nightly club held a special meeting at the home of Mrs. M. A. Richardson Monday evening.

The club secretary for the coming club year.

Winifred Sharpe and family of Mil- waukee, are visiting his parents, Rev. and Mrs. Thomas Sharpe.

Misses Mary Paul and Jessie Owen returned Monday from their Minnesota trip.

Mr. and Mrs. F. B. Goodrich and daughters, Helen and Winifred of Delavan, called on friends here Mon- day.

Miss Margaret Brady of Lima, is spending a few days with her cousin, Ellen Monaghan.

Miss Lena Driver and canning club attended the demonstration at Milton Monday.

Mr. and Mrs. Robert Stewart and daughter, Martha, spent Sunday with John Kilkenny in Delavan.

A. M. Hull, S. C. Hull and Miss Zetta Entress left Monday morning for a motor trip to Iowa.

Mary, Alice and Dorothy Kilkenny of Waukon, are here for a visit with relatives.

Will Thorpe and family and August Krueger and family motored to John- stown Sunday evening.

Mrs. W. H. Gates and Mrs. N. E. Sowle attended the Red Cross meeting in Janesville Monday.

Mrs. Thomas of Plattville, spent Sunday with her son, Homer Treweek at the D. E. Thorpe home.

About thirty boys arrived from Chi- cago this morning and will be at the Lincoln Center camp for the week.

MAMAUX SUSPENSION
VINDICATES CALLAHAN

[SPECIAL TO THE GAZETTE.]

When Hugo Bezdek, new manager of the Pirates, suspended Al Mamaux, he gave partial vindication at least of the measures taken by Jimmy Callahan to put something into the Pittsburgh club.

Callahan was pilloried extensively for disciplining the temperamental star. It was declared Callahan didn't know how to handle Mamaux and that George Gibson, now with the Giants, was the only man who could get any work out of the youngster.

It is being directly charged now that Mamaux is and has been playing with the Pirates in order to get a win, it is stated, because he figures he eventually will be transferred to some other club, preferably the Giants.

Evidently there is no chance of such a transfer for John McGraw recently went out and pulled off a trade for Al Demaree, adding a mediocre right hander to his staff. If he could have obtained Mamaux he doubtless would have done so.

Despite the fact that Joe Wellington is generally recognized as the logical man to meet Benny Leonard in his first real championship bout with a lightweight there is small chance of the boys' meeting unless Wellington changes managers.

There is a feud of long standing between Billy Gibson, manager of the Philadelphia Athletics, and Jimmy Johnston, who directs the affairs of Wellington.

When Leonard met and defeated Freddie Welsh, winning the light- weight championship, Johnston gave out a statement declaring that Leon- ard did not and could not weigh 133 pounds. This statement was contradicted not only by Gibson's man- ager, but by Welsh's manager, who said Leonard weighed just what was announced.

This didn't help any to clear away the clouds between Gibson and John- ston, and they seem just as far apart as they ever were. The logical guess is that Johnny Dundee will be sent against the New Yorker although he is a light heavyweight.

Frankie Callahan, the Brooklyn lightweight, also wants a chance at the title. It is doubtful if Callahan would have a chance for victory in ten rounds, but in a long scrap the verdict might be changed, for the Brooklynite is one of the toughest.

MORRIS MILLER

Connie Mack's sunburned grass cat- ers are responsible for the assertion that Walter Johnson of the Senators, despite his poor record this season, has more stuff on the ball than ever before. He is not a pitcher, but a twirling in his old form, but is receiving little help from his mates, who are lamentably weak.

Johnson's better than he ever was; he's throwing curves at you now just when you set to bump that express ball he throws, says Ping Bodie, who has been in the game since now when I set myself to take a poke at it along comes a curve. It is the fact that the Senators are not go- ing so good that has whipped him. Bodie, who with the Sox would be- come a game about once a month.

Jimmy Sheekel, nominally coach in the Chicago Cubs, but actively at work as athletic director at the naval training station near Chicago, has forty-eight baseball teams organized among the 2,000 recruits in camp, and his wing he is going to develop some major leaguers for use when Uncle Sam is done with them.

Some idea of what it costs to run a ball club in the American Associa- tion was revealed last week in the suit for an accounting filed by Mrs. Lennon against the present operators of the St. Paul club. They showed that the running expenses of the Saints in 1916 were \$76,487, and this did not include taxes and in- surance. The debt incurred in purchase of the club.

Al Demaree and Joe Whitolt are the two happiest players in the league. Each was taken from a second division club and installed with a championship probability in mid- season. They are quite certain to carry home a world's series check.

About the time fans begin to be- lieve that there is no such animal as a triple play some club comes to the front and makes one. The Boston Red Sox are the latest to make one of these three-in-one killings and the Chicago Cubs were the victims.

Outfielder Davis, secured by Joplin from Moline, did not last long, being released when the Western started its second half. Joe Burg, let out by Omaha, was taken on to play the in- field and Lindaman was released.

Cy Williams of the Cubs is up to his old tricks of pounding the ball out of the lot. When it comes to hitting 'em high and far away few players in the game today have anything on the lanky outfielder of the Chicago club.

Jack Barry is proving as compe- tent a leader as was Bill Carrigan. He is having a poor season with the stick, but nevertheless Jack is pro- viding a valuable cog in the Red Sox machine. Quite a ball player this Barry.

Rabbit Powell, the new outfielder of the Braves, is playing a great game in the outfield and getting his hits quite regularly too. Despite the loss of Fowles and Rehg, the Providence Grays continue to set a fast pace in the International league.

Carl Smith of Omaha is the latest member of the famous family to come into the major leagues. Elmer Smith, Red Smith, Sherrod Smith and J. Smith of the Cardinals won the big show before Carl joined the Browns.

Roger Bresnahan has made frequent changes in his Toledo club since he proved itself a failure in the early days of the season, but the new players have no made the club any more of a winner than it was in May.

One of the pitching stars of the present campaign is Wilbur Cooper of the Pirates. He has turned in about one-third of the victories scored by his club. The team has been a con- sistent loser, but Cooper wins quite regularly.

Disgust.

Disgust is not a pretty thing. And yet in this we aim. In just a modest way, to sing The praises of the same.

At times Disgust or something such is what a person needs. If he'd amount to very much And do ambitious deeds.

It sits you on to greater works. At any rate it should. And though indeed it often irks, It often does you good.

This year Evers played virtually half a year with the Braves and collected approximately \$10,000 from the Phils. Together his services with the Braves for the three and a half years netted him the neat sum of \$67,312.33. This is more than any single player in the majors earned in the same time.

Johnny has often been referred to as the human crab, but who wouldn't stand such a thing? What that ma- jor? Johnny has made a big suc- cess out of the national game, prob- ably more so than any other individual in the big show today.

Since his debut for a number of years, and in addition to commanding a sub- stantial salary, figured in several world's series events. It is estimated that he has made close to \$150,000 back in 1902. This is his sixteenth year in the big show as a ball player.

He was playing manager of the Phils in 1903. He is sold and is be- ginning to show his age.

Billy Evans has written a book on umpiring, and hits the nail on the head in the following paragraph:

Baseball is largely a game of alibi. The player can always offer an alibi when things do not go his way. The umpire is not infallible; he makes mistakes, but not nearly as many as the fan and player would have you believe. Often the umpire renders a perfectly correct decision, but that he renders the result of a game, yet that rendering the proper decision he may be mobbed and compelled to suffer any number of indignities at the hands of the fans, and in some cases that he has robbed them of the game.

Magnolia, Aug. 13.—Joe Setzer and friend of St. Paul, Minn., motored here Sunday to visit relatives.

Several from here went to Janesville Sunday with fairly good luck.

THE LIFE OF ARMY CAMPS.

As soon as our new volunteer or conscripted armies are mobilized, the problem comes up of the kind of life they are going to live in camps. The first thing to be looked out for is their physical comfort. They need good food, well cooked, and plenty of it.

At the time of the Spanish war there were bitter complaints of the food served to soldier boys. Their hardships must have made it difficult for many years to secure enlistments. On the Mexican border there has been much less complaint. The absence of several indicates that the boys were pretty well fed. The big armies now to be raised will present a greater problem for the quartermaster than was ever handled before. It will take a high range of executive ability to provide a wholesome and appetizing table for so many men.

It will pay to make the boys comfortable. The less their hardships, the more willingly they will do their duty. But the problem is under difficulties. It means raw food and lumpy beds.

The boys need pleasant recreations and some home-like surroundings. They will be put through some strenuous physical stunts, giving them perhaps all the athletics they need. It may not be necessary to organize baseball and football leagues to work off steam. But when the day's work is over, they need pleasant recreation. They want to be able to meet and form friendships and gain refreshment for another day. A good line of movie shows would do a lot to relieve the tedium of this hard working life.

Liquor and women always form a problem in connection with army camps and will need to be dealt with rigorously. If these boys are to be worthy soldiers of Uncle Sam, they must be able to resist the temptations of life. The people who have money to make by encouraging vices must be kept at a distance. The churches and Young Men's Christian Associations have a great chance to provide wholesome facilities here for recreation, so that the boys will not be driven by dullness to seek diversion in harmful ways.

SAVE GASOLINE.

The government is as full of wise saws as to what to do and what not to do these days as the "Ancient Mariner" who remembers the "big wind in Ireland" or the first tobacco crop in Rock county. The latest of their pamphlets urges all auto owners to avoid long trips for mere pleasure and conserve the gasoline supply of the country for future use. Of course this may be essential, but it is safe to say that the average auto owner will sniff at the suggestion and as long as he can pay for his gasoline he will continue his trips. In Germany they have taken over the gasoline supply. Petrol, they call it there, and they hang onto it for the government vehicles that are used to convey troops and food supplies, bring back the wounded and convey the dead to the great crematoriums where the bodies are converted into fertilizer and other ingredients, according to reports. Of course this country is far from taking over the gasoline supply for any purpose as yet, but still the first warning has been issued and under the new food dictatorship no one can tell what will come.

HEALTHY FEET.

A club of four hundred men at Orange, Tex., signed an agreement to go barefoot this summer. Occasionally one hears of people who discard shoes as a health and back to nature fad. The doctors seem to think it helps children with weak arches. Shoes are more or less unnatural. Few white men have the endurance to walk on the Indian or colored days whose ancestors were the next thing to an unshod foot.

At the same time people could improve their pedestrian abilities and promote good foot conditions, if they would cut out silly shoe fashions. For years men have railed at women for wearing preposterous high heels that tip the foot forward and must upset the arrangement of bones and muscles.

Yet the majority of young men wear very pointed shoes nowadays. A well rounded toe, conforming to the shape of the foot, looks like an old man's style to them. They will pay the price of their smart looks some day in corns, bunions, and chiropodist bills.

JANESVILLE DAY.

Tomorrow is Janesville day at the Janesville Fair. It is particularly fitting that the day should be observed by proper attendance by citizens in view of the fact that all the retail places of business are closed and the fair, which is a local pride, is showing the finest of exhibits in livestock and all kinds of a good race card and something of interest to men, women and children in other lines. Janesville Day is a period set particularly as a home day and it is to be hoped that the gate receipts tomorrow night will show a record-breaking attendance.

The poor little junk dealer is carefully watched for fear he might have received a few dollars worth of stolen brass and chrome, but no one ever notices who buys all these thousands of automobiles that are constantly being stolen.

After wondering why the farmer makes such a fuss over handling his tract of a hundred or more acres, the average man decides that he was wise in deciding he did not have time to cultivate a patch ten yards square in the back yard.

Confidence is expressed by the German people that if they agree and fight and starve for a couple of years longer they may be able to prevent a genuine right of suffrage from being given them.

Having had no great luck in getting the negroes to start a revolution, the plotters might now try to see if they can get the hoboes, tramps and wandering Willies to rise and seize the government.

The railroad employees are said to be dissatisfied with the operation of the eight hour law. Probably these soulless corporations are refusing them the right to sleep on company time.

The price of gasoline keeps going up, but then anyone that owns an automobile is always supposed to have a lot of money lying around that he doesn't know what to do with.

Some people's idea of displaying patriotism is hanging out a flag and leaving it out in stormy weather so that it gets to look like a pink dishrag.

Driven by the fear of having to enlist, many of our bachelors are attacking the Hindenburg line of spinsters.

It is surprising how hard some people will work for the privilege of living in a big city slum to escape the horrors of a comfortable country home.

The efficiency of the volunteer system of raising an army was proved by the great number of men who volunteered to let George do it.

Feeling so weary with vacation fever that they can hardly sit upright at their desks, many men decide to take a fifteen mile tramp after fish.

The fighting powers can't always kill off any women and children, but ability to sink a hospital ship gives them lots of comfort.

The politicians who are trying to make political capital out of the war are fast creating a political deficit.

Another thing occurring on correct schedule time is the accidental burning of all these grain elevators.

On the spur of the moment

Time. How lagged is the pace of Time. How slow, how tardy and belated. How dearly the moments climb. When the pleasures awaited; it seems a cycle we must mark. A long and wearisome duration. Before at last we may embark On that vacation.

But how the merry moments speed. How days alone seem very recent. The days fly hastily, indeed. And with a haste that's quite indecent. When pleasantly we dally nigh The shore or mid the rural joy. And then before we know it, whir, Vacation's over.

Time is a useful thing, it's true. 'Twould puzzle us to be without. And yet, we'll leave it up to you. There's one unpleasant thing about it. When we would have it speed and flit, it drags along in dawdling paces. And when we'd have it loaf a bit It simply races!

Head Waiters. A head waiter must always be able to know at a glance how much money you are going to spend so that he will be able to agree at you accordingly. When a restaurant proprietor hires a new head waiter he expects to be greatly humiliated. To make a favorable impression the head waiter must be able to give the proprietor a look that will make him feel pretty cheap. Before the interview is over the proprietor is showing the head waiter his family kodak album.

The head waiters in the magazines and movies could never hold real jobs because they have been seen to smile and bow. If a real head waiter ever smiled at a customer he would break out with a rash and if he ever bowed it would cause internal injuries. There may come a day when a head waiter's smile and bow may be had at moderate prices, at present, however, they are within the reach of few.

Idiot! To like to knife Alexis Waite. He told his wife Her pies were great.

MODEST DOC. Dr. Robert Rogers of Keokuk volunteered to serve on the board. In case the governor could not secure a doctor, Keokuk (la.) Gate City.

How Nice! On doctrine, gospel, faith or creed. No many folks are disagreed. We very seldom do we find The many of a single mind. It's little wonder then that life Has much of argument and strife. How very pleasant it would be If everyone could quite agree And then no matter what you said They'd always smile and nod the head.

And say, "Of course!" or "Very true!" Or "Yes, I always say that, too!" If everyone were thus agreed We then would have no further need Of lots of debates and razor strops. And hats and shoes of different size And books and different sort of pies. And all the people you could see In order not to disagree Would have live on tea and broiled pike And everyone would dress alike.

LIMA, Aug. 14.—Mr. and Mrs. Frank Stillman of St. Paul visited their cousin, Will Herrington, last week. Mrs. Edgerton's daughter, of Whitewater, were Sunday visitors of L. L. Reese and family. Messrs. McComb and Van Etta will exhibit fine cattle at the fair in Janesville this week. Friday with Mrs. McLane in Whitewater. The Aid meets on the school house lawn Wednesday. A picnic supper will be given.

Miss Adie Smith of Shopiere is visiting her cousin, Mrs. Belle Collins, this week. Fred Truman and two children visited friends east of Whitewater Sunday.

A. P. Smith has moved to Fort Atka and a family from that place are on his farm.

Fred Woodcock and family drove to Prospect Sunday. The little Misses Bingham of Six Corners have been visiting their aunt, Mrs. W. D. McComb.

William MacIntosh celebrated his sixty-sixth birthday Saturday. His sisters and brother-in-law, Mrs. Brockway and Mr. and Mrs. Coxhead, spent the day with him.

Edgerton News

MARRIED LAST DECEMBER BUT KEEP SECRET UNTIL NOW

[SPECIAL TO THE GAZETTE.]
 Edgerton, Aug. 14.—William Rasmussen of Stoughton and Miss Gretchen Tallard of Edgerton stole a march on their parents and many young friends in Edgerton and Stoughton when they were married in Chicago, December 7, 1915, by Rev. M. Basstrom, pastor of the Norwegian Lutheran church of Chicago. They succeeded in keeping their marriage a surprise until yesterday when they broke the news to their parents, and intimate friends.

Miss Gretchen Tallard is the third daughter of Mr. and Mrs. E. G. Tallard, who reside on North First street in this city. She is twenty-one years of age. Mr. Rasmussen is the youngest son of Mr. and Mrs. Lewis Rasmussen who reside at 610 South 4th street, Stoughton. He is twenty-five years of age.

At the time of their marriage Miss Tallard was visiting at the home of her grandmother, Mrs. Anna Tallard, at Joliet, Ill. and Mr. Rasmussen was attending the dental college of Northwestern university. They are very popular in their respective cities and their host of friends extend to them their congratulations and best wishes.

They are being entertained at the home of Trac. Christianson in Stoughton at the present time. They will be at home to their friends after September 15, 1917, when Mr. Rasmussen will complete his last year of school at Northwestern university.

Robert McIntosh, son of Mr. and Mrs. W. McIntosh of this city, who has been at Fort Sheridan, has received a commission as first lieutenant. He will have a twelve day furlough before going to the training camp.

Mr. McIntosh has been at Fort Sheridan the past three months, and after his furlough expects to be transferred to the Battle Creek, Michigan, concentration camp.

Letters from the boys of Company K, at Camp Douglas, received by relatives in the city, state that the company had their medical examination on Sunday. The letters state that the company are nicely situated in camp and are well cared for.

Mr. and Mrs. Carl Nelson of Brooklyn and Mr. and Mrs. J. Jergenson of Stoughton were guests at the home of Mr. and Mrs. R. Jacobson the first of the week.

Harvest hands for the tobacco crop will undoubtedly be scarce when harvest time arrives. The growers are already trying to contract for help at \$5.00 per day.

Fred Maves and G. Young are at Janesville during the week assisting the Bower City band at the fair. George Schofield and family are moving their household effects to Chicago where they will make their future home.

Carl Decker of Janesville is a guest at the E. S. Hatch cottage at Rock river. The members of the Milton camp at Rock river entertained the Edgerton camp last evening. Refreshments were served and an enjoyable evening is reported.

EMERGENCY FLEET CREWS TO SCHOOL

[SPECIAL TO THE GAZETTE.]
 Boston, Aug. 14.—While the timber and steel for America's great emergency fleet is being gathered from the woods and mines, hundreds of men are being moulded into competent officers and engineers for the completed ships.

When the call went out for men to train for America's great merchant marine it reached the far Pacific, the south Atlantic and even to the fishing smacks off the coast of Maine. They began to drift in one by one.

A weather beaten fisherman from Maine perhaps the engineer of a tramp; even oillers and tenders came, and each found that he could improve his rating by the course in the free government school at Boston.

The school is the largest of seven free schools of navigation throughout the country, and one of thirty such to be started soon. The men get intensive training in the technical side of navigation in courses that are complete in from a month to six weeks, according to the knowledge of the students.

It has not been easy for these men of the sea to buckle down to "book learning." The processes involved in learning algebra is accompanied by much chewing of pencils and scratching of heads, but they are making good.

There is no time lost. The courses are intensive, and the "students" are working with that earnestness from them they see the vision of a ship of "The Fleet," and the particular "berth" for which, each after his kind, is fitting himself.

Michael Romanoff, founder of the ruling line to which the deposed Czar Nicholas II. belonged, came to the throne in 1913.

VOICE OF THE PEOPLE

Editor:—The complaint about taxi rates to the fair ground has been given a one-sided hearing and a one-sided judgment as well.

We who make our living by carrying passengers are prepared to show that the 25c rate is not exorbitant, providing we are allowed to be heard in the matter. With gasoline where it is, together with the high cost of replacement, we must get at least this if we are to make any money. We have to live out of this business and also keep our cars repaired, and get new ones when they are gone. The wear and tear on a car on these short hauls is exceedingly severe and when it is figured in we are not likely to get rich out of it. There are very few millionaires in the taxi business.

The council seems to be over-compassionate about the poor farmer and his quarter. We notice the farmer is not selling his crops for nothing. How about 25c a pound for tobacco in the field. We have always charged these rates, and claim they are not unfair. It's hardly fair for city officials to determine in an offhand manner what we shall charge for service. They don't own cars and can't have the bill to pay. In the first place they have passed no law on the subject and their opinion is not entitled to any more weight than anyone else. Any one who doesn't want our service can take a car. We have heard no serious complaints about our charges. Why wasn't this business taken up weeks ago so we could have shown our customers a charge of 25c per passenger, and insist that is fair. Some kid with his father's car may be able to run for 10c, but a man can't make a living on that basis.

BRING ALIEN LAD TO DRAFT BOARD FOR REGISTRATION

Town of Janesville Youth, Mentally
Deficient, Failed to Sign Up on
June Fifth.

Frank Gentz, town of Janesville
youth, was brought to the court house
yesterday by John E. Kennedy for
failure to register for draft on June 5.
This morning members of the board
of registration declared that Gentz
was not right mentally, and that due
to his poor education he failed to list
himself at the specified time.

Gentz was registered by the board.
It is not probable that the young
man's card will be sent to Madison,
and the state board will give him a
number.

There are any number of rumors
and stories going the rounds regard-
ing the apprehension of slackers and
their being brought in by Sheriff
"Bob" Whipple and being dealt with
not any too leniently by the board.

This was the case of a young man
quite prominent locally and who is
quite a wide swathe in circles social-
ly. He was brought in by Sheriff
Whipple and being dealt with not any
too leniently by the board.

The sheriff called the youth yester-
day morning and ordered him to come
to the court house at once. He failed
to show up. When he appeared at two
o'clock, the board explained the rea-
son for his being called and ques-
tioned him regarding his insurance po-
licy. He said he would not be twenty-one
until next June, and that to prove it
he would telegraph to an up-state county
clerk to verify his statement of his
age. The board ordered him to secure
it. The policy was taken out three
years ago, and the young man's age
at the time it was written. He was
permitted to go.

WOMEN'S WORK HAS IMPORTANT PLACE

Important Exhibits at Fair Grounds
Shows Display of Beautiful Flow-
ers and Fancy Work.

Crowded to capacity were all the
departments in Floral Hall at the fair
early as yesterday afternoon, and this
morning display space was at a pre-
mium. Miss Ella Smith is superintend-
ent of the Art Department, and en-
tries in this class are of the highest
previous records. One collection is
being hung on the wall behind the
cooking display, as the wall space is
not needed for the current display.
A large collection of pictures has come
up from Beloit, which makes a fine
showing. China painting is represent-
ed by large numbers of beautiful
pieces. So many in fact, that an extra
number of china closets had to be
provided to house the exhibits. Among
those bringing in china are several
artists who have not before exhibited
here.

Mrs. Bert Rutter and Mrs. Harry
Jones have had plenty to do in receiv-
ing and caring for the quantities of
work brought in. A large display has
been entered. The work is a wonderful
array of plain and fancy needlework
is in evidence, together with fine speci-
mens of knitting, crochet work and all
the other feminine arts and crafts.
These articles are especially difficult
to place to the best advantage and re-
quire painstaking care in their ar-
rangement. In the Culinary Depart-
ment, Mrs. John T. Jones is superin-
tending. The contestants bring in the exhibits
on Wednesday morning, so not much
is on display as yet except the jellies,
canned fruit and pickles. But these
are making a good showing. Large
exhibits of plants are in place in the
floral department, but the cut flowers
and floral pieces will be brought in
on Wednesday morning. An exception-
ally fine display of plants is being
shown in the Domestic Department.
In the Domestic Department, the articles com-
ing in faster on Monday and Tuesday
than Superintendent, Antidel, Prof.
Louth and Prof. A. B. West could in-
stall in place. The place is being
obliged to draft in several assistants
to aid them in their work. It is a
wonderfully fine showing and will re-
pay careful study of the exhibits.
The work shown. High schools,
country schools and training school all
have a part in this splendid exhibit,
which takes in agricultural domestic
science and home arts, as well as
the regular studies of the curricu-
lum.

CHANGE LOCATION OF STREET DANCE

Red Cross "Pavement Dance" to be
Held on Recently Completed Pavement
on North Bluff Street.

With the completion of part of the
new pavement on North Bluff street,
the location of the big pavement
dance to be held for the benefit of the
Red Cross tomorrow evening, has
been changed, and the dancing will
be held on the new pavement on
Bluff street two blocks north
of Milwaukee street.

The new street is as smooth as a
ballroom floor and according to the
members of the Red Cross, it is the
best place for making the arrange-
ments for the affair, will afford as good a
dancing surface as any floor in the
city. The Bower City band, out in
force with twenty-one pieces, will
furnish the music for the evening. Ice
cream and cake will be served
by the ladies of the local society on
the lawn of adjacent homes, and
everything possible will be done for
the amusement of the large crowd
that is expected. Though the loca-
tion is a change, the dance will be
chosen, as was as good as any other
in the city, the offer of Street Commis-
sioner Goodman to use the new pave-
ment, was accepted at once. The new
location will draw a larger crowd. Other
cities have long had the custom of
opening new streets with a celebra-
tion and dance of this type, and al-
though all of the pavement on Bluff
street has not as yet been completed,
the dance as well as being a Red
Cross benefit, will in a way celebrate
the construction of one of the finest
streets in the city.

Dancing will start promptly at eight
o'clock when Mr. and Mrs. George
Hatch will lead the grand march, and
will continue until eleven o'clock.
Everyone is urged to be present for
this novel entertainment planned es-
sentially to aid the Red Cross.

nue, yesterday.

Ben Hur Court No. 1 will meet on
Wednesday evening, Aug. 15th, at
seven o'clock at West Side L. O. Club
hall. The program will be changed
from sign to seven so that everyone
may attend the pavement dance, given
for the Red Cross benefit on that
evening.

Club Night.
Today is the regular club day of
the Country club. A dinner will be
served at half past six. Miss Carrie
and Miss Elizabeth Schickel will be
in charge, after which dancing will
fill the evening.

200 TO VISIT CITY ON BIG BOOSTER RUN

State Fair Boosters With Forty-Piece
Band and Many Notables to be in
City Next Monday Evening.

Two hundred State Fair Boosters
touring the state in about seventy-
five automobiles, and carrying with
them a forty-piece band, will visit
Janesville next Monday, August 20th,
on the first night's stop in a booster
run that will include more than sev-
enty towns and cities throughout the
state, and will cover hundreds of
miles.

Elaborate preparations are being
made by the local automobile dealers
under the direction of E. A. Kemmer-
er, of 121 North Jackson street, to
club for a big public reception.

With the boosters will be Mayor Dan-
iel W. Hoan of Milwaukee, C. P. Nor-
ford, state commissioner of agricul-
ture, Honorable R. L. Cannon, sec-
retary of the Wisconsin Good Roads as-
sociation, and other men of promi-
nence throughout the state.

Following a street parade the tour-
ists with the citizens of Janesville will
gather at the Court House park,
where speeches will be made by May-
or Hoan, Commissioner Norford, and
Secretary Cannon, boosting the state
fair, and describing the magnitude of
the exposition to be held at the fair-
grounds.

The boosters will give a concert at
the evening of the program.

It is probable that large delegations
of Janesville motorists will drive up
Monday afternoon to meet the boosters
to escort the visitors to the city.
From here the tourists leave Tuesday
morning for Beloit, thence up through
Green county to Madison where they
will spend the second night out.

SEEK BOY WHO FLED FROM HOME ON HORSE

Harvard, Ill., Youth Departs Glad in
Blue Shirt and Overalls and A
Big Straw Hat.

Has anybody seen a slip of a lad in
blue overalls and shirt, straw hat
with a shot-stuffing for a hat band and
mounted on a white fat horse?

He is a boy of thirteen years
from Harvard, Ill., who left there Sun-
day night to see the world. The
Janesville police department was in-
formed of the lad's vanishing yester-
day afternoon and Chief P. H. Cham-
berlain has ordered his officers to be on
the lookout for the youth.

His name is Kalmager and his
father is F. K. Kalmager. The boy
has relatives at or near Darden and
his mother, Mrs. Kalmager, had stated
in that direction although it was said
that it could be probable that arriv-
ing near there and surmising that the
search for him would be made in that
direction, he would head northward.
Up to noon today young Kalmager had
not reached Janesville.

Another youth is also sought by the
police, William Smith, age thirteen.
He left his home at Dardening for
the experience of the trip.

"Y" WILL EMPLOY PHYSICAL DIRECTOR

Directors of Local Association Decide
to Secure Man to Give Full Time
to the Work.

At a meeting Monday evening the
directors of the local Y. M. C. A., the
questions of employing a new phys-
ical director, and of sending a man to
look after the physical work of the
local Y. M. C. A. were discussed and
approved. The directors instructed
the secretary to secure a man to look
after the physical work of the local
"Y". Although the men who are
now in charge of the Y. M. C. A. are
well versed in physical instruction,
the directors want a thorough,
efficient man who will have absolute
charge of the physical work. The di-
rectors want a man who has a per-
sonality and magnetism enough to
arouse a new athletic interest in
Janesville. The new physical director
will be secured as soon as possible.

It was also decided at the meeting
that the local branch would send a
man to Camp Douglas for two weeks,
beginning August 22nd. The "Y"
branch will be paid by the local Y.
either Secretary Bearmore or one of
his assistants will make the trip to
Camp Douglas.

The Y. M. C. A. has undertaken to
look after the welfare and amuse-
ment of the soldiers in the various
mobilization camps throughout the
United States and the battlefields of
Europe, and the Janesville Y. M. C.
has determined to do its share in
this good work.

SCHOOL NURSE WILL WATCH THE PUPILS

Innovation in Janesville Schools Will
Start Next Month—Result of
Red Cross Sales.

When the Janesville public schools
open next month, a school nurse will
be on duty to look after the health
needs and the health interests of the
school children. This innovation will
be the result of the Red Cross sales
this work there will be established a
children's clinic, to which children
found to be handicapped by enlarged
tonsils, adenoids, or other physical
defects may be referred for thorough
medical examination.

This work for the safeguarding of
the health of the school children has
been made possible through the initia-
tive of the Janesville branch of the
Wisconsin Anti-Tuberculosis associa-
tion and with the co-operation of local
physicians and members of the board
of education. The Anti-Tuberculosis
association has voted to devote the
\$500 fund which has accrued from the
annual sale of Red Cross Christmas
seals to financing the work for two
months, employing a nurse for that
period and providing necessary equip-
ment for the clinic. It is believed
that this practical demonstration of
the value of the school nurse and of
the money saving to the community
through the increased school atten-
dance and the prevention of epidemics
will so arouse the interest of public
spirited citizens that the work will be
made permanent.

Janesville was its municipal nurse
to a similar demonstration conducted
by the local Anti-Tuberculosis associa-
tion several seasons ago. The as-
sociation, through its sale of seals,
furnished the funds for introducing
the visiting nurse work and its sup-
port was later taken over by the city.

The many demands upon her services
and the impracticability of her at-
tempting to do the work of school in-
spection, such as she has felt the need
for it. The school nurse will work in
close co-operation with her school
physician.

Janesville has been estab-
lished in practically every city of
over 10,000 population in the state and
in several smaller cities. That Janes-
ville is now taking the lead in this
work is largely to the leadership of Dr. S. E.
Buckmaster, president of the Janes-
ville branch of the Wisconsin Anti-
Tuberculosis association and also of
the board of education. The Rev. Fath-
er Willmann, secretary of the associa-
tion, and others actively interested in
the work of disease prevention. The
project will be conducted under the
direction of the state association,
Arthur Hedquist, one of its rep-
resentatives, having held several con-
ferences with the local workers for
outlining the general plan.

CLOSE PLAYGROUNDS BUT NOT THE BEACH

Season to End Next Saturday, But
Swimming Accommodations Will
Be Continued for Some Time.

The city playgrounds will close for
the summer on Saturday, August 18.
Although the plots on the four school
grounds will not be used for play-
ing facilities will be open to the use
of the playground children as well as
the public. Arrangements have been
made between the city and the board
of education so that a man will be sta-
tioned at the beach throughout the
day and evening.

A busy program is in store for the
playground children during the week
and Wednesday morning will be spent
holding the tennis tournament at the
Jefferson school playground. Wednes-
day afternoon and evening the play-
grounds will be closed because of
Janesville day at the fair. On Thurs-
day the final hike for the children of
the four playgrounds will be held to
Crystal Springs. About two hundred
boys and girls will make the trip. The
start will be made at nine-fifteen from
the playgrounds. Baseball games will
feature the day's entertainment.

Mr. Raymond, who has been
in-charge on the swimming beach
throughout the summer, has been se-
lected by the city and the board of
education to continue the swimming
season. He will be on duty at the
beach throughout the day and evening
and will take care of the bathhouses.
A new feature of the swimming beach
is the new "chutes" which were erec-
ted by the playground directors.
As soon as the playground season is
over the "chutes" will be given over
to the use of the general public. In
order that the people can receive mor-
e accommodations Mr. Raymond has
arranged for checking facilities for
valuable while the owners are in
swimming.

THIRTEENTH ENGINEERS
SOMEWHERE IN FRANCE

Joss Cohlater, a member of the
thirteenth engineers of Chicago, for-
merly an employee of the S. Paul R.R.
and resident of this city, reported
the Thirteenth Engineers, a com-
pany of which was made up of officers
and employees in the St. Paul ranks,
reached their destination safely Sun-
day morning, August 12. Somewhere

WOMEN URGED TO DO THEIR BIT IN WORK OF NATION

Need for Concerted Action on the
Part of Housewives and Others
Demonstrated Clearly.

There has been a call sent out through the county asking for voluntary registration among our women for the various lines of service desired by the government. A great need for women who are willing to fill the positions left vacant by the boys who are being called to the front is felt throughout the country and many women have already responded to the call.

However, if our women would register for the kind of service desired, these registration cards would be kept on file and in a very short time vacancies could be filled where now much delay is caused. Blanks have been sent out through the cities and villages of Rock county and an earnest appeal is made to every woman who can to register for some service. If this registration is voluntary and

responded to as it should be no compulsory registration will be required, but unless results can be obtained in this way a compulsory registration will be called for.

During this week a booth will be conducted under the supervision of the women's committee of the Rock County Defense Council, at the fair grounds in Janesville, and all women in the county are urged to visit this booth during their attendance at the fair. An exhibit of canned and dried products will be held and information given out to all who request it. Bulletins and pamphlets on the various lines of work undertaken by the women's committees will be distributed free to all who desire them. An opportunity will be given at this time to register for women's service if any desire to do so.

News Notes from Movieland

—BY DAISY DEAN—

American movie stars have shown their patriotism on many occasions of late, and one of the most patriotic of all, Viola Dana. There are various ways in which one may show his or her patriotism, and Mr. Hoover has said that the best way in which women can aid their country in the present crisis is to conserve the food supply. Viola is doing her share, and has even gone so far as to have the food department's conservation costume made for her use when she works in the kitchen.

"Hooveralls" is the name applied to the costume. The gray chambray dress is held in shape by a belt which crosses in the front and buttons in the back. Detachable white aprons, fastened with large pearl buttons, add to the simplicity of the outfit. A collar to match is made of white pique and lies flat. The skirt is gored and has large pockets and a deep hem. A helmet white pique completes the costume, and the symbol on the left sleeve is a shield combining the American flag with a stalk of wheat.

Peter M. Lang was one of the original "Bostonians" in the company when "Pinafore" began its long career in 1878 at the Boston Museum. He created the role of "Gly" in Robin Hood and remained in this for six seasons.

Lang has been in motion picture work for seven years.

Walter Edwards, Louise Glaum's director, is responsible for the following statement: "Miss Glaum's next picture is to be a unique vampire creation. It is to have the Egyptian settings, the incense and all the Sybaritic touches for a siren's lair, but—in all of the 176 scenes taken within the vampire's habitat there is not to be a single tiger skin!"

When Dixon Merritt, 1917 president of the American Press Humorists of Nashville, Tenn., was introduced to Miss Janice Cowl, he said: "To which Miss Cowl responded: 'And mine is to write a catchy last line for a humorist's column.'"

County Road Crews

MAY DO FARM WORK

Madison, Wis., Aug. 14.—The Official Bulletin, the publicity organ of the nation during the war, reprints a report of the Wisconsin State Council of Defense in its latest issue, with the following comment:

"The Council of National Defense has sent the following letter to the several State Councils of Defense:

"The Wisconsin State Council of Defense has approved a plan whereby county road crews may, at the discretion of the county councils of defense, be requisitioned for having and maintaining and other rush work on farms where a serious labor shortage exists.

"The Department of Agriculture has investigated this plan and finds it well adapted to the needs of many localities. We are, therefore, inclosing a copy of the Wisconsin bulletin on this subject which explains their plans in detail."

SHERMAN KELLY

PLEASES ONCE MORE

The enthusiastic audience which greeted Sherman Kelly and his party at Myers Theatre were entertained with an international romance play called "The Cutest Girl in Town." It was well played and the players deserve credit for the way they handled their various parts.

A clever magic act and singing specialties were introduced between acts.

A few loud, impatient rings on the doorbell, and a card sent up to the master of the house, announced the arrival of Professor Callenwatt, the great baby namer.

"Twins, are they not?" he asked of Ignatz Prouty, the new father.

"Twins they are!" proudly answered Prouty.

"Well," continued the professor, "I provide suitable names for children at \$1.50 per head. A discount off for twins—\$2.50 for the two; triplets—\$3.00 for the three, and so on up."

"Very well, but—"

"First, what profession are they to follow? The names must suit them, you know. Lancelot for a doctor (lance a lot) you see. For a girl with a great matrimonial career ahead of her, Marlow (marryin') would suppose she is to be a milliner—Hattie (hat)—or should she be a stenographer, Adeline (add a line) you understand. Then, if your boy is to be a jockey, Horace (Ho! Race!) would be suitable. Or if he's to be a—"

When Prof. Callenwatt looked from the ceiling, he was alone.

Boxing is bound to become the most popular sport in all our American camps. There will be many competitions, and bouts held between the champions of different regiments and naval crews. Out of the vast number of enlisted young men there will arise many great boxers. When our soldiers go abroad they most likely will meet in competitive bouts many of the most expert French, English and Australian boxers. These contests will give them

more valuable experience in the manly art in many ways.

DELANAV

Delavan, Aug. 13.—A close escape from serious results happened to the George Pounder family last Friday evening, when their large passenger car, which they were riding in, slipped backward run on the long hill near the home of James Cummings, never stopping until it ran down the ditch through a barbed wire fence and across the marsh, hitting a tree from the rear, which brought it to a standstill. The occupants of the car were: Mr. and Mrs. Pounder and daughter, Miss Rose, Ralph Pounder, a son, and a young lady, who was an out-of-town guest. Mr. Pounder, who thoroughly understands running his car, was driving up the hill when he was obliged to stop on a narrow place to allow a neighbor who was stalled by a broken machine to get by. At once the brakes gave way, the car slipped backward, and the gears refused to shift and the large car with its heavy load went tearing down the hill. The onlookers were petrified with terror, thinking fatal results were bound to follow, but it happened no one suffered injury except a slight shaking up. The jolt from the car striking the tree was softened by the heavy new tire which was strapped to the rear end of the machine. Mechanics called from this city were afterward able to tow the car out of the marsh by way of the pasture lots and found it somewhat jammed up against a tree. Besides the disordered gear which caused the trouble, Glenn Nichols and family drove to Madison last Saturday and accompanied by Mrs. Charles and family, drove to Kilbourn and the Delis on Sunday.

Miss Ella Donohue of Chicago, is the guest of the family here.

James Mooney, wife and son spent Sunday in Milwaukee at the home of his sister, Mrs. William Connell, going there by auto with Mrs. Otto Isen-

troupe, Miss Leonard, Miss Lizzie Delaney and wife and Miss Lillian Delaney.

Mr. and Mrs. Henry Williamson and family will have as their guests this week, Mr. and Mrs. Roy Gage and baby of Joliet, and Mr. and Mrs. Dana Gage and two children of Forestville, New York, who drove here today in the latest car.

Mrs. Emily Widay, who is suffering poor health, expects Mrs. Annie Toulges of Holland, Minn. to arrive here on some time this week.

Angela Ryan, eight years old, gave a birthday party to a number of her young friends at her parents' cottage at Turtle Lake Sunday, Aug. 13.

The Ladies Aid Society of Delavan, Camp Douglas on Saturday to visit their sons, Phoenix and Lawrence, members of Co. C.

The departed today at the home of her aunt, Mrs. Eugene Thorpe, in Darlen.
